Neglect.

A writer in Colman's Rural says: What a popular doctrine-everybody practices it-the world gives a big part of this life to it. Men of every trade are as devoted to neglect as if the only route to gain is by that way-and yet who has not suffered by neglecting to do what ought to have been done! The evil that comes by neglect does not prompt one to change his course; the business is stuck to in the face of evi-dence that proves it the greatest obstacle selected to contend with.
